

NATURALLY OCCURRING TRACE MINERALS

Redmond Salt - A Typical Analysis Contains
the Following Trace Minerals

Aluminum	Gallium	Samarium
Antimony	Germanium	Scandium
Arsenic	Indium	Selenium
Barium	Iodine	Silicon
Bismuth	Iron	Silver
Boron	Lanthanum	Strontium
Bromine	Lead	Sulfur
Cadmium	Lithium	Tantalum
Calcium	Lutetium	Tellurium
Carbon	Magnesium	Thallium
Cerium	Manganese	Thorium
Cesium	Molybdenum	Thulium
Chromium	Nickel	Tin
Cobalt	Niobium	Titanium
Copper	Phosphorus	Tungsten
Dysprosium	Potassium	Vanadium
Erbium	Praseodymium	Ytterbium
Fluoride	Rubidium	Yttrium
Gadolinium	Ruthenium	Zirconium

More than 60 Trace Minerals
No Chemical Processing or Additives
Preferred by Animals

**When it Comes to
Animal Nutrition,
NOT ALL SALT
IS CREATED
EQUAL**

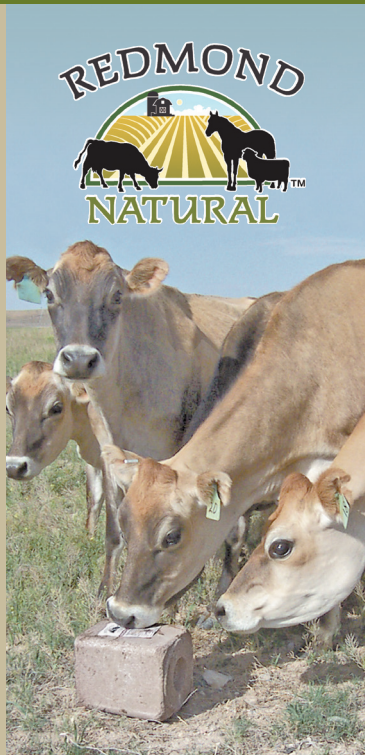

Not All Salt Is Created Equal

When given the choice, animals choose Redmond Natural almost every time. We believe that animals are endowed with the ability to choose the minerals they need if given the choice. With Redmond Natural Trace Mineral Salt you can be assured that your animals are getting the minerals they need. Fortunately, it's perfectly balanced by Mother Nature in a form that animals prefer and can use.

Redmond Salt is 100% natural mineral that is mined from an ancient crystallized seabed in Central Utah. This unique formation provides more than 60 naturally occurring crystallized trace minerals that are beneficial in maintaining your herd in a pure and perfect state of balance and optimum health. In principle, sea water, the most ancient natural solution on earth, has preserved these valuable trace minerals in a perfect synergy and proportion that is nearly identical to that found in blood. As animals consume these minerals, their bodies return to a more natural state of mineral balance. For 40 years farmers and ranchers from around the world have reported on the phenomenal benefits from feeding Redmond Salt, including how much healthier and productive their animals are.

Producers report benefits including:

Less Footrot • Decreased Udder Problems
Higher Production • Lower Mineral Costs
Better Appetites • Stronger Heats

Real Results. Naturally.™

Compared to regular salt, Redmond Natural Salt provides more than 50 trace minerals essential to animal health.

Mineral	Redmond Salt	Regular Salt
Sodium	36%	39%
Chloride	57%	60%
Calcium	.55%	-
Phosphorus	.002%	-
Potassium	.03%	-
Sulfur	.2%	-
Magnesium	.09%	-
Copper	3 ppm	-
Iodine	20 ppm	-
Iron	700 ppm	-
Manganese	5 ppm	-
